

## ABOUT US

Gregg Maggioli, Executive Director, and wife, Sandy Maggioli, founded Lighthouse because they understand the frustration and feeling of helplessness when you are told your child has Autism.

“Our son, Victor, was diagnosed with Autism in 2003. We understand the struggles you go through as a parent when you are told that your child has Autism. That is why we created Lighthouse Autism Center here in Mishawaka and Warsaw,” said Maggioli. “Intensive center-based therapy made a huge difference in our son’s life – and in our lives.”

## A PARENTS PERSPECTIVE

“Before Lighthouse, we struggled to get Ally to connect with us. She would only communicate to address her most basic wants and needs. She would rarely even let us sit next to her,” said Ally’s mother, Lisa Cook. I am falling head over heels in love with her all over again. We have everyone at Lighthouse to thank for that. This is the first environment where we have seen her thrive and where she has been really happy.”

**Providing Quality,  
Center based, ABA Therapy  
to Mishawaka, South  
Bend, Elkhart, Warsaw,  
Southwestern Michigan  
and Surrounding areas**

## ABA Therapy

- Develops new skills
- Refines previously learned skills
- Decreases socially deviant behaviors
- It is endorsed by the US Surgeon General
- Research shows it is most effective when used 25-40 hours per week.

## How We Can Help

**As the only center** in Michiana for Autism with an award-winning management team, we know it is our child and family focused philosophy that helps us achieve enduring success. Having been in your shoes, it is our understanding that helps our parents stay strong and positive amidst daily challenges.

**We make every effort to help** families of children with autism through the use of intensive, center based, one-on-one ABA Therapy. This approach can help teach children social, motor, communication and self-help skills.

**ABA works** - from an 11 year old child who used the restroom for the first time to a 5 year old transitioning back to school – we see success through ABA every day.

## The Lighthouse Difference

- Community based and family focused
- Intensive, daily center based ABA therapy

- We do all insurance billing and processing
- No upfront costs
- Full time onsite BCBA supervision
- Open year round
