

Indiana Open Enrollment

Open enrollment is a designated period when Indiana Medicaid members can review and change their managed care health plan. While Medicaid enrollment is available year-round, plan changes are typically limited to this window. **For 2026, open enrollment runs from November 1 through December 15, with changes effective January 1, 2027.**

Individuals may choose to change health plans for a variety of reasons, including accessing certain providers, physicians, and medical care.

Should you want to change your health insurance during open enrollment you can take the following steps:
